Soldiers Starving.

General Rundle's task is a colossal one,

But such is not the case. The men are absolutely starving. Many of the infantry-

men are so weak that they can barely

stagger along under the weight of their soldierly equipment. They are worn to shadows, and move with weary, listless

footsteps on the march. People high up in authority may deny this, but he who denies

it sullies the truth. This is what the sol-diers get to eat, what they have been get-

According to Mrs. Smith's petition, her husband seemed to have a penchant for Sir Rustle Rundle. This good soldier and other live animals and insects, and, among others, kept a few toads, all of which assisted in contributing materially to her unpleasant frame of mind. She alleges that after remonstrating with her husband he seemed to take especial delight in making the dog and raccoon fight, and avers that it was done then for the purpose of annoying her. She also declares that he frightened her with the live toads.

Mrs. Smith also makes other allegations.

The distance covered was just sixty miles, which was made in exactly forty-five min-

This is one piece of track on which a
good many of the fast runs are made, because it is straight and is level. The Baltimore and Ohio had a big train and a good
engine and they thought it as well to make
a good run and give the patrons a little
extra for the money. The run was the
fastest that has been made over that strip
of track or through that territory this year.

## HEAT IN NEW YORK BROKEN BY STORM.

Twelve Persons Killed by Lightning or Drowned and Many Houses Destroyed.

One Family Picnicking Under a Tree Shocked by Bolt of Electricity, but Not Hurt-Storm Was Local.

REPUBLIC SPECIAL. New York, Aug. 12.-Out of the West there came a storm at 2 o'clock this afternoon which brushed aside the hot wave, cooled the atmosphere and then quickly scurried seaward. Death and destruction followed in its wake. The storm was in the nature of a cyclone and took the people unawares. Twelve persons were drowned, killed by lightning or fire, as a direct result of the visitation.

Small boats were recked upon fierce waves where a moment before perfect calm had prevailed, in many instances they were overturned and their merry-making occupants were compelled to battle for life in the seething waters. The lightning struck frequently, inflicting instant death to some and playing queer pranks upon others,

At the height of the storm the wind reached a velocity of sixty miles an hour. Houses were unroofed all over Greater New York, chimneys were toppled over and swinging signs sent in a cloud before the storm king. In the parks and suburbs trees were snapped and uprooted by hundreds and frame houses suffered greatly. Family's Narrow Escape. resentative in South Africa of the Dady

The most peculiar incident of the storm, perhaps, was the escape of a family that had been making a holiday on Washington Heights.

James Brown and his family, consisting of nine persons, took refuge under a big tree when the storm broke. A bolt of lightning tore the tree into shreds, and the en-tire party fell stunned. The clothing was literally torn from their bodies. They lost even their shoes. Strange to say, no member of the party was killed. All were te-moved to the Harlem Hospital, and are doing well. An infant, held by Mrs. Brown, was practically uninjured, although the mother was divested of her clothing and was badly stunned.

Edward E. Benner, a Brooklyn cyclist, was killed at Bay Shore. He stood in the center of a party of eleven persons. A boy, whose hand he was holding, to reassure the lad, was paralyzed by the shock, but will recover. Nine others of the party escaped without even so much as a shock. Broke the Unbearable Heat. The storm passed very rapidly, and re-ports from outlying districts and the New Jersey resorts indicate that it was local to this city. The edge of it was felt at Sandy Hook, but as the neighboring resorts had only pleasant weather to report, the supposition is that the storm passed out to

Before this break in the hot wave thirty persons had died of the heat in the greater city, notwithstanding that it was Sunday and all business was suspended. The indications, however, are that the worst is over, and that the hot wave has been effectively broken in the Atlantic States. The temperature at 2 o'clock this afternoon was 102 degrees, but it is measurably cooler to-night, and a gradual fall of the mercury

French Torpedo-Boat Destroyer Sunk-Many Drowned.

Paris, Aug. 12.-During the maneuvers of the French fleet off Cape St. Vincent last night a collision occurred between the firstclass battleship Brennus, flying the flag of Vice Admiral Fournier, commander of the fleet, and the torpedo-boat destroyer Framee.

The Framee sank immediately. The accident was due to the fact that the Framee turned to the right, when ordered to the left. Details thus far received are very meager

#### PASSENGER TRAIN WRECKED. Several Killed and Forty Injured-Cars Ditched.

Lake Charles, La., Aug. 12.-It is reported that several persons were killed and forty injured by the wrecking this evening, four miles east of this city, at Iowa Station of the westbound fast passenger train on the Southern Pacific road, leaving here at 5 p. m. The trucks of the engine left the track, and the entire train was ditched, except the sleepers. There is no telegraph station at Iowa, and details are lacking. Arrangements have been made to bring the dead and injured to this city over the Kansas City, Watkins and Gulf road, which crosses

Rain Every Day for Thirty-One Days.

Houston, Tex., Aug. 12.-Rain has fallen every day for thirty-one days in North, East and South Texas, the Colorado being twenty-three feet above low-water mark at Columbus. The ground is now saturated and the small streams are booming. The cotton crop is becoming very rank in growth and is shedding bolls badly, there being a very small fruitage. The wet weather is conducive to pesis and there are numerous reports of the ravages of insects. Wheat threshing has also been interrupted and much of the grain spoiled by sprouting.

## RAILROAD NEWS FROM ALL POINTS.

Intention of Missouri Pacific Officials Regarding Payment of Dividends.

MANY ESCAPES ON THE WATER. | CERTAINTY OF CONTINUANCE.

That Must Be Assured, They Say-Handsome Surplus This Year -Alton and Kansas Pacific-Notes.

Much speculation has been indulged in for some time regarding a return by the Missouri Pacific to dividend payments. Officials of the company, when spoken to on the subject, have refused to give any intimation of the policy that is to be pursued in relation thereto further than to say that it is not the intention to resume dividend payments until there is an absolute certainty of being able to maintain them.

The predictions referred to do not come from official sources, but are based solely on the carnings of the road and the information of its finances obtained from the publication thereof. For the year which ended December 31 last, the road earned a surplus of \$640,000. This was without counting the interest paid March 1 on the Texas Pacific seconds held in the Missouri Pacific treasury. If there be added to the surplus the amount which the Missouri Pacific paid during the year for commissions for the rendjustment of its bonds, amounting to \$1,625,000, it will make the real surplus for

the year \$2,265,060. To this again may be added \$1,000,000 for carnings during the first seven months of the current year. Another \$1,000,000 may be added for interest which it is expected the Texas Pacific will pay on its bonds, held by the Missouri Facific, for the current year. This would give the company a surplus of \$4,25,000 at the close of the present year, even if nothing should be earned over and above all charges for the remainng five months of the current year. The fall months, however, usually show the heaviest earnings.

It would seem as if the predictions re-

ferred to had some substantial basis.

CALIFORNIA'S CARNIVAL Semicentennial Celebration of Ad-

mission to the Union. There will be held in San Francisco September 8 to 10, 1900, a celebration of the semicentennial of California's admission as a State. This celebration is to be along a State. This celebration is to be along different lines than those at Philadelphia, Chicago and Omaha. It is to be less formal, a composite Fourth of July and old settlers' reunion, with plenty of Western good cheer and comradeship. The four days' programme provides for reviews of United States troops, naval parades, regattas, sacred concerts, fireworks, all kinds of field sports, receptions, excursions, addresses and various spectacular features. Ornters of national reputation are to be orators of national reputation are to be present. The liberality and hospitality of the citizens of California are proverbial. Money will be poured out freely to make the Admission Day Semicentennial a delight and a success.

San Francisco is a cosmopolitan city of 325,000 inhabitants, very attractive for sight-seers at all seasons, but particularly so in early fall.

early fall.

The recent construction of the Santa Fe route into San Francisco, thereby adding another transcontinental line to compete for the Pacific trade, as well as locally facilitating the transportation of visitors, is one of the most important happenings of the semicentennial year.

KANSAS-PACIFIC DEAL.

Union Pacific Officials Deny Negotiations With the Alton. Omaha, Neb., Aug. 12.-The rumor that the Chicago and Alton road is negotiating to buy the Kansas-Pacific is discredited at Union Pacific headquarters. Officers of the road say they never heard of the negotiaroad say they never heard of the negotia-tions and they know of no reason why the Union Pacific should sell that road. They say it is, as much, a part of the Union Pa-cific as is the main line from Omaha to Ogden and it was bought in at the fore-closure, that the Union Pacific is buying, not selling lines.

AS BASING RATES.

May Use Cheap Fares From Kansas City to Chicago.

A proposition has been submitted to a vote of the Western roads providing for the adoption of a basing rate of the rate of one fare plus \$2 for the round trip for the special excursions to be run from Kansas City to Chicago August 15, with return limits of September 30. It is desired to use the rate for basing purposes both from points west of Kansas City up to Chicago and from Chicago to points east thereof.

Stop-Over Privileges.

The Pennsylvania officers believe that they have demonstrated to the regular New York lines and to the officers of the Trunk Line Association that stop-over privileges on seashore business do not prejudice the regular Eastern business as much as it has been supposed. On the recent excursion out of the city all stop-overs at Washington and Philadelphia were cut out and the business was ticketed on through to the East. In spite of this the sales were heavier than they were at the same time last year. The they were at the same time last year. The Pennsylvania will use this as an argument to convince the Eastern officials that stop-over privileges are not an unmixed evil.

ZINC AND LEAD REPORT.

Ore Prices Remained Firm All Week—Prospective Advance.

REPUBLIC SPECIAL.

Joplin, Mo., Aug. 12.—The purchase of one lot of zinc ore at \$28.50 a ton the past week is taken as indicative of a possible advance in ore prices and is very encouraging when it is taken into consideration that spelter is lower and quoted very dull. The ore price was firm all week, a large propor-tion of the Joplin, Zincite, Oronogo and all of the Neck City and Springfield ore selling at \$28 a ten, while a part of the product at Carthage, Aurora and Cave Springs sold at the same figure. The Neck City sales are from reserve stock, held when ore was lower. The owners made \$3 a ton by holding it three weeks, a very neat profit in itself.

Lead ore brought \$47 a ton all week, the same as the preceding week.

Following are the sales in pounds from the tracts of land owned or controlled by the companies named for the week ending August 11, 1900: JOPLIN. Zinc. Lead. 240,660 Lead.

Baptist Church.

Baptist Church.

Chicago, Aug. 12.—William J. Bryan spent the day very quietly. In the morning he attended the Emmanuel Baptist Church, a fact which had not been announced beforehand, so that the congregation was not larger than usual. Mr. Bryan was recognized, however, and was greeted by a number of people after the sermon. After church, Mr. Bryan drove to the Chicago Beach Hotel, where he took lunch with Senator and Mrs. Jones, Mr. and Mrs. Charles A. Towne and General Joseph Wheeler. The afternoon was devoted to rest and some necessary letter-writing. Mr. Bryan will probably leave for Lincoin next Wednesday or Thursday.
